HUSAIN CHAMPAWALA

B2/108, Mufaddal Upliftments, Vasind, Mumbai • 8879525311 • husainchampawala@gmail.com

SUMMARY

Passionate about coding and enthusiastic about continuous learning, with a focus on emerging technologies like **Blockchain**. Excited to explore and contribute to the revolutionary potential of decentralized and secure solutions. Committed to building a strong foundation and **open to new challenges**. Seeking opportunities to make a significant impact in the world of **Blockchain technology**. Eager to go deep into the **MERN stack** for comprehensive web development expertise.

EDUCATION

Bachelor in Engineering   **2020 - Present**
Terna Engineering College, Nerul   9.26 CGPA

HSC   **2018 - 2020**
K M Agrawal College, Kalyan   86.77%

SSC   **2008 - 2018**
Shree Siddhi Vinayak English High School, Vikhroli   87.40%

PROJECTS

Project Management Web App

- Seamlessly incorporated **Google Calendar API** for efficient scheduling of events and tasks.
- Utilized **GitHub API** for streamlined commit tracking and integrated **LinkedIn API** for automated posting of project updates.
- Implemented a robust task management system using the **MERN stack** for optimal organization and tracking.
- Enhanced project visibility and progress monitoring through **React Chart.js**, providing insightful status updates and data visualization.

Twitter Clone

- Developed a Twitter clone using **MongoDB, Express.js, React.js, and Node.js**, showcasing expertise in full-stack web development.
- Implemented key features including user authentication, real-time tweet updates, and a responsive user interface, demonstrating a comprehensive understanding of modern web development practices.

Stack Overflow Clone

- Built a Stack Overflow clone utilizing MongoDB, Express.js, React.js, and Node.js, showcasing proficiency in **end-to-end web development**.
- Implemented user authentication, **Q&A functionality**, and an intuitive interface, contributing to an effective platform for streamlined knowledge sharing within the developer community.

E-Commerce Website

- Developed a feature-rich e-commerce store using **MERN Stack** demonstrating expertise in building scalable and dynamic web applications.
- Integrated user authentication, advanced product filtering based on rating and pricing, and implemented seamless cart functionality with add and remove features. Successfully **integrated payment systems** for a smooth and secure online shopping experience.

E-Learning Platform

- Streamlined financial tracking using MongoDB, Express.js, React, and Node.js, demonstrating proficiency in end-to-end web development.
- Implemented input, categorization, and analysis of expenses, enhancing user experience with **React Chart JS** for clear **visual representation**, specifically utilizing a **doughnut chart** for insightful data insights.

SKILLS

Programming Languages	C++, Java
Web Technologies	HTML5, CSS3, Javascript, PhP, Node JS
Web Frameworks	React JS, Express JS, Bootstrap
Databases	Mongo DB, MySQL
Others	Data Structures & Algorithms

ADDITIONAL INFORMATION

- Soft Skills Bronze Badge by **NPTEL**.
- Rank 14 in coding contest organized by **Coding Ninjas** as Fusion Friday.
- **Google Cloud Study Jams Participant**, Completed all assigned courses, earning Google Cloud Swags. Acquired in-depth knowledge of Google Cloud technologies through practical study sessions.
